Wendy reported that she attended a zoom meeting on Monday, March 2, held by Rep. Bresnahan and his staff about CPF (Community Project Funding). The problem was that they said all applications had to be in by Friday, March 6. The projects had to be shovel ready. She thought that maybe she would be able to apply for the Emergency Services Center roof or something else that we had ready but then learned that they were after larger projects of at least \$1,000,000 up to multi-million-dollar projects. He was allowed to submit 20 projects to the Appropriations Committee for further scrutiny. This is something we can plan to apply for once the engineering study is done on the levee. There were many categories offered to apply for such as public safety, water issues, energy, and transportation. But they do have to be large projects and shovel ready.
